| Carbofuran-phenol           | Q | 0.01 m | Deltamethrin          | Q | 0.01   | Endrin                    | Q 0.01   |
| Carbophenothion             | Q | 0.01   | Demeton-O             | Q | 0.01   | Endrin-ketone*            | Q 0.01   |

Q: Accredited components (Dutch Accreditation Council (RvA), registration number L335)

\* This component will only be reported on request

m: reporting limit for some matrices higher than MRL. r: not the full EU residue definition is analysed without additional analysis.
